Create vectors
num_vec <- c(10.5, 20.2, 30.8, 40.0)
char_vec <- c("R", "Python", "Data", "Science")
log_vec <- c(TRUE, FALSE, TRUE, TRUE)
Helper function to display content and type
inspect_vector <- function(vec, name) {
cat("--- Vector:", name, "---\n")
cat("Content :", vec, "\n")
cat("Typeof :", typeof(vec), "\n")
cat("Class :", class(vec), "\n\n")
}
inspect_vector(num_vec, "Numeric")
inspect_vector(char_vec, "Character")
inspect_vector(log_vec, "Logical")
Console
Terminal
Background Jobs
--- Vector: Numeric ---
Content : 10.5 20.2 30.8 40
Typeof : double
Class : numeric
--- Vector: Character ---
Content : R Python Data Science
Typeof : character
Class : character
--- Vector: Logical ---
Content : TRUE FALSE TRUE TRUE
Typeof : logical
Class : logical
